Scene Analyzer feature list

The Analyzer analyzes a Candera Scene Graph and its performance of a 2D or 3D Candera project. It supports:

- Scene Graph View [1]
- Detailed information about the Scene Graph [1]
- Benchmarks related to Scene Graph [1]
- Measurement and data presentation of render processes [2]
- Online – Experiments [1]
- Measurement of key performance indicators [1]
- Storage of measured data

[1] Features available during an online connection with appropriate targets
[2] Features traced during an online connection with appropriate targets and analyzed afterwards
