CGI Studio 3.16 - Community Edition

CGI Studio 3.16 Community Edition - What's New

Welcome to CGI Studio 3.16 Community Edition, Candera's first free software development platform for hybrid 2D and 3D graphical interfaces for embedded systems.

Along with this new release a few new implementations have been added to our package:

New Community Edition Samples

- New Sauna Screen solution sample
- New Coffee Machine solution sample
- New Pollen Infoscreen sample

Scene Composer / Hardware Deployment

- Solutions and assets created with our Community Edition are not compatible with our Professional and Enterprise Editions.
- Runtime Limitation and Watermark will take effect in hardware deployments.
  - Every new user will get 3 free vouchers upon registering in our Community Forum. These vouchers can be used to unlock 3 hardware deployments without any of above mentioned limitations.

Field of Usage

- The Community Edition is for private usage and educational purposes only. All aspects or commercial usage are prohibited.

> If you want to upgrade to the Professional Edition please send an e-mail with the subject ***Community Edition Upgrade*** to sales@candera.eu. Please include the following information to speed up the process: name, company name, e-mail, phone number, country, optional: job title.

Documentation

- Online documentation (Link)
- Updated video tutorials including solutions (Link)

This page provides information regarding the most recently added features and updates since our last release.
